

## “Legal Deficits”

### Theme 1: The Introverted Expert

Lt. Reginald Barclay

Christian Clemenson : Savant accountant

The resident warp core engineer on ST TNG is Lt. Reginald Barclay. A very shy, but extremely talented engineer that doesn't do well in public speaking situations. I also see some physical resemblance here... dare I say inspiration? However, unlike the accountant, Barclay will shake hands.

### Theme 2: Vigilante Justice

Spock was fond of saying the needs of the many outweigh the needs of the few but Kirk once told him that his rescue was because the needs of the one outweighed the needs of the many. Alan likes to take on the underdog and Denny likes to take on the high profile case.

Well, Kirk ignored the rules whenever they didn't make sense or fit the situation. But a lot of similarities to vigilante justice was covered in the “Gone” Trek comparisons.

### Theme 3: Loan Sharks and Hookers (Ferengis and Dabo Girls)

Quark with his “Dabo Girls”

The oldest trade in the world is alive and well in the 24<sup>th</sup> century. Apparently, so are loan sharks and gambling.

Alan seems to have a rapport with many ladies of the evening, including an escort with a wooden leg, an “elf” and Asst D.A. Dan Fielding is alive and well Boston.
